

## ***MEDICAL PRACTICE WITH A HUMAN FACE***

*Dream or reality ?*

**An ongoing formation event of the European Confederation of Jesuit Alumni/ae**

### **Program for above event in Paris, June 29 – July 1, 2012**

During the last world congress of Jesuit Alumni/ae Father General, Adolfo Nicolas SJ, once again invited the alumni/ae to be men and women of depth, with and for others – wherever they might be.

For most of the alumni/ae the place where they are is first and foremost defined by their family life and their professional life. Those two environments are the main focuses of their every day life, and for that reason this is also the place where they really can be men and woman of depth, men and women with others and men and women for others.

The European Confederation of Jesuit Alumni/ae acknowledges this reality and wants to provide alumni/ae from all over Europe with more opportunities to enable them to fulfil their wish to be those men and women, and to stay in touch with the spirit of the Society of Jesus which once took the responsibility of their education.

Fully aware of the diversity of professional backgrounds in which alumni/ae can be active, the Confederation is launching an inaugural experiment by organising an ongoing formation event, specially aimed at alumni/ae who are professionally active in the medical sector.

From Friday evening, June 29, till Sunday noon, July 1, 2012, a weekend is planned in Paris (Centre Laennec, 12 rue d'Assas, 75006 Paris) on the topic "Medical practice with a human face – dream or reality?". Some 30 professionals from all over Europe will discuss topics of practical, scientific, ethical and spiritual interest regarding the meta-technical aspects of medical practice. The discussions will be preceded by an introduction by a professional and/or an academic. The scientific committee of the seminar consists of Prof. Carlo Fronticelli (Turin), Prof. Stephan Claes (KU Leuven), Prof. Jean-Louis Misset (Paris) and Prof. Andrea Vicini SJ (Boston College).

Although this event is primarily aimed at alumni/ae who are professionally active in the medical sector, it is also open to non-alumni/ae with a similar professional background, who are interested in the topics that will be discussed and to students in disciplines that prepare for a professional activity in the medical sector.

For the professionals, recognition of the event in the context of professional obligation regarding ongoing formation, will be requested from the national professional bodies concerned.

The participation fee will be limited to 150 € pp, including four meals (lunch on Saturday and Sunday and dinner on Friday and Saturday). Hotels and travel should be booked individually. However, ten individual rooms have been booked at the nearby Maison Adèle Picot (39 rue Notre Dames des Champs, 75006 Paris). If you want to use one of these rooms, please contact Eric de Langsdorff ([eric.delangsdorff@orange.fr](mailto:eric.delangsdorff@orange.fr)). Other hotels in the immediate neighbourhood of the Centre Laennec are the hotel Raspail Montparnasse (203, boulevard Raspail) or the hotel Chomel (15, rue Chomel). More hotels can be found on [www.booking.com](http://www.booking.com)

### Inscription Procedure:

Please notify the president of **your national alumni/ae federation** of your interest in this program **before April 7, 2012**. While we will do our very best, we can't guarantee that everybody will be able to participate in the program, as the Centre Laennec can cater for only 30 participants. We will confirm your participation or your presence on a waiting list at the latest by April 20. An inscription is only considered definitive if the participation fee has been paid.
